## ***Story Teller by: Jeff Wolf***

### **What have you all been into this winter?????**

Here we are in the latter part of March, the weather is wet but much warmer here in the Southeast than it has been, we're consistently staying warmer throughout the day, and the sun is staying out longer thanks to Daylight Savings time. We have been able to enjoy our rides a few days this winter.

We understand that many of the folks in the Northeast part of the US are socked in with snow, but one thing I'm sure of is that many of us are ready for spring, where we can get out and get, let our rides see some sunlight, clean them off and get ready to hit the highways and bi-ways ready for the kickoff of the 2018 Outdoor Car Show Season!!!

The indoor show season for many of us here in the US has been in full swing since January, and those in the parts of the US where it doesn't really get cold have been enjoying their cars year around.

We have spent countless hours watching live video feeds from the indoor shows and the coverage of the shows where folks are that enjoy year-round nice weather. We are also in process of completing this month's issue of the magazine.

We have been carefully planning our 2018 Car show schedule, focusing on new and exciting coverage for you for 2018. Our plan this year is to go back to some places we haven't been in a while and to go to places we've never been before and soak it all in.

We have also working on some new stuff for the Magazine for this year. We'll let the cat out of the bag when the time is right and the projects have come to a close and are ready for production. We've also been working on a few improvement projects for the "Hot Rod Haven". For those of you who are not familiar with the term, this is the name we have affectionately given our office here at the headquarters of WMM.

We recently just closed on a plan to go and see some killer drag racing at Beech Bend Raceway in Bowling Green, Kentucky. We'll get to see some of our old friends and hang out with them for the day and gather some coverage for you guys as they race for the GOLD!!!!

**What have you all been into this winter? We'd really like to hear from you!!!! WMM**

In September of 2017, we had to make a trip to Austin, Texas for work and while there we just had to find some automotive activities to attend that would extend our trip by a day. And that we did, we hit a tri-fecta of automotive goodness.

We were searching through our favorite show listing guide and while we didn't find any of the local shows that we used to attend, we did find a show that we hadn't attended before. This show was a benefit show called Hill Country Rally For Kids, located in the Historic District of Dripping Springs, Texas on Mercer Street.

We had never been to this show before but we we love Dripping Springs as our friend Mercury Charlie own's a shop on the way to this show, so we were obviously in on going.

On this Saturday, there was a great turnout, the weather was AWESOME with temps in the 80's and there was a nice breeze!! When we got there we learned it was a historic district which made for some awesome photo opportunities and we even go to see some our old friends from back in the days when we lived in Texas.

So without further adue, enjoy our coverage of the Dripping Springs Car Show. WMM

**This '30 Ford Coupe just screams hot rod with its 4 carbed Chrysler Hemi, wide whites and flat back paint!!!!**

**This '67 Chevelle SS is a 396 backed with an M20 Muncie tranny has all original Tahoe Turquoise paint the rarest of them all. It's L35 396 is numbers and backs to a 12 bolt posi rearend with 3.55 gears.**

This is one rare Chevelle and was built in Fremont, California. The Chevelle was rotisserie restored in 2008, it now has tripple plated chrome, show quality stainless trim, perfect date coded glass.

All NOS date coded or original parts were used throughout and the car still retains all of its original sheet metal!!

Stunning!!!

Inside the cockpit the owners has the 778 medium Turquoise interior, power steering, power brakes, floor console, strato bucket seats and a very rare "blinker tach".

I'm normally all about customization, but there is no way in the world I could customize an all original, rare numbers matching big block Chevelle!!!

**This '68 Chevrolet Camaro is eye popping with its orange paint and white stripes!! The grey 5 spokes are nice as is the houndstooth interior!!**

**Marty Sampson of Austin, Texas own's  
this killer '40 Ford aka "Thumper"**

**The exterior is painted in PPG Lexus Sa-  
vannah and Lexus Sierra Sand with PPG  
Vibrance Prismatic Flake!**

The interior is Chocolate Fudge Ultra Leather and suede installed by Twin City Upholstery. The seats are 6 way GTO seats!!!

(top) the power comes from an LS1 Corvette engine backed by a 4L60-E  
(bottom) The gauges are Classic Instruments with a banjo steering wheel!

**This was one of the cool, killer cars that Mercury Charlie brought out from his garage that he had for sale at the show!!! Buy it and drive it, or take it to Mercury Charlie's garage for a complete redo/customization!!!!**

**This '70 Pontiac GTO is all original and is shown with the Orbit Orange color. Its got white vinyl interior and is true muscle!!!**

**This '57 Ford Thunderbird really popped in the Texas sun with the Azure Blue exterior and white interior. The wide whites are super nice with the blue steel wheels and chrome caps!**

The T-bird has awesome white interior with darker blue seat belts and is equipped with Air Condition when Texas sun becomes to hot to have the top down!.

The engine is a nicely detailed Ford Y-Block which gives the little T-Bird plenty of get up and go!

**This '55 Buick Special was one of my favorites from the show. It has a mild custom treatment, a bit of an altitude adjustment and that paint and wide white wall and wheel combo drew me in!!!**

**What a cool truck we have here. The paint is flawless, the color, perfect and the American 5 spokes polished to the max!!**

The engine compartment is nice and clean, we loved the finned valve covers and it's equipped with A/C for those hot Texas days!

The interior is done in grey cloth, the dash is nice with aftermarket gauges just a super clean driver!!

**This cool coupe has just the right hot rod look, from the fire engine red paint, to the black scallops outlined in white to the polished headers and detailed engine to the wide whites and black steelies with chrome caps!!**

**Was Elvis present this day?  
Maybe if his pink caddy was '61,  
lowered, with lakes pipes and a  
late model LS engine under the  
hood.**

We are also not sure if Elvis' Caddy had a custom painted roof on his pink caddy...but this one did and we really liked it.

The '61 Caddy Coupe De-ville had a mostly stock interior sans the air ride suspension gauges mounted under the A/C unit.

**This '28 Ford Roadster Pickup caught our eye with the tannish green exterior, black top and red steelies and chrome rings and caps!!**

The interior of the RPU was neat, clean and simple with the peanut colored leather, high end carpet and our favorite feature...3 pedals!!

The bed was also nicely detailed with oak wood, polished stainless hardware and a custom antique box that may have been the fuel tank?

**This deep purple '32 Ford Roadster has to be one of my favorite colors of all the roadsters I've even seen, check out the way it pops in the sun. The interior is no different, check out the shifter knob!!**

**This Roadster was very nice in its own right! Red with black and grey interior along with grey cas5 spoke wheels!!**

**A burnt orange Chevrolet Camaro SS with white rally stripes and polished 5 spokes and hide a way headlights never fails!!!**

**This '30 Ford 5 Window had light gray paint, was super clean and had chrome wheels with wide whites and a dark red frame and suspension!!! HOT ROD!!!**

**Some say that you can have any color as long as it's black. That's exactly what Henry said when he produced this '32 Ford 5 Window!! I wonder what he would say about the red steelies, and chrome caps and rings?**

**LONE STAR GIFTS**  
Antiques ★ Crafts ★ Jewelry  
Baby Items ★ Collectibles  
858-9912 ★ 301 Mercer

**Any true Hot Rodder or Custom car enthusiast does not simply travel to Austin, Texas without stopping in to say hello to Mercury Charlie and check out the latest round of projects he's working on!! We had to go see our good friend Charlie on the way back from the Dripping Springs show.**

**Here is Charlie's current daily driver his red and black Mercury Monclair! We love the two-tone paint treatment, red steel wheels and chrome hub caps wrapped in white wall tires!!!**

**MERCURY  
CHARLIE**

As many times as I've visited Charlie's shop, rather it was his old one or the newer one, I never see the same automobilia!!!

A person could literally spend hours walking around his shop looking at all of the cool hot rod and custom decor and come back again next time and see something that you had missed on the previous visit!

**Anyone who knows me or has ever been to a car show or on a road trip with me knows I love to plan every minute of the trip, including activities, and even meal stops especially if the co-pilot is just along for the ride and doesn't have any areas of interest along the way. I'm die hard, and I also have backup plans in case the previous plans don't pan out. You also know that I'm very spontaneous and due to my diehard automotive drive and determination will drive hours if I think there is a cool automotive event at the destination or in this case it's still daylight when the previous plans have been completed.**

**That's exactly what we did here, we went to see Charlie, went to the car show, had some killer grub, but realized that after all that activity it was still daylight on my last evening in Austin. So what did we do? We drove a bit out of the way to attend an evening of Drag Racing at yet another favorite hang out while in Texas....San Antonio Raceway in San Antonio, Texas!!! While we did put some extra miles on the rental car, sat in traffic for a while and even had time to kill at some antique shops close to town, we still had a wonderful evening at the drag strip. Check out some of coverage from the evening! WMM**

Mary & Larry Reep has this Outlaw Fuel Alter called the "Grim Reaper" It was cool to watch her race and even more fun to watch her crew work, and to get to talk to her and get her autograph!

**The Chattanooga Choo-Choo was one of two jet powered that made a few exhibition runs during the event. If you have never seen a jet car run, you have to add this to your bucket list, you will be glad you did!!!**

**Here we have the Cannon Ball Express  
it was the other jet powered car that did  
several exhibition runs throughout the  
evening! WOW!!!!!!**

**All good things must come to an end, we had a blast during our visit to Austin, Texas. We are very grateful to get to see and spend time with all of our old friends during our short trip. Till we meet again!!!**

*We here at Wolf Motorsports Magazine would like to introduce you to  
**Wide Whitewalls - Cruisin' Cuisine!!!***

*What is Wide Whitewalls Cruisin' Cuisine you may ask? A:* Wide Whitewalls - Cruisin' Cuisine will be the newest section of the magazine that will highlight and introduce to you the best places to eat that this country has to offer.

*What else will this section of the magazine contain? A:* It will show photos of the restaurant(s) that are featured during that particular month. The restaurant will normally be pretty close to the car show that is covered for that particular issue.

*When will Wide Whitewalls - Cruisin' Cuisine begin? A:* WWW-CC will begin with the 6th Anniversary - June issue of Wolf Motorsports Magazine!

*Why is this section being added to a car magazine? A:* The answer to this one is simple, when we are cruising all over the US to attend car shows, we have to eat! And, we're not sure about you all, but we are always looking for the best place close to the car show where we can chow down, either before, during, or after the car show! It's that simple! My other hobby besides everything car related is everything FOOD related!!! So, we wanted to add something that we think you will find usefull and enjoyable in your travels!!!

**We here at WMM would like to hear about your favorite places, to eat and would love to share photos of them. If you would like to share please email us at: [contactus@wolfmotorsportsmagazine.com](mailto:contactus@wolfmotorsportsmagazine.com)**

**May you enjoy the best flavor profiles on your automotive journeys!!**

**During our trip to Dripping Springs, we had lunch at this cool place called “Homespun Kitchen and Bar”. It doesn’t look like much on the outside, however, what good restaurant ever does? You have to inside check out the decor, the entertainment, the friendly staff and the awesome food!!!! Homespun Kitchen and Bar is located at 131 E Mercer St in Dripping Springs, Texas.**

This gentleman entertained us during our meal as he played all different types of music. He was really good and played a wide variety of tunes.

I know it's not normal, but I ate my plate before snapping a photo, but this delicious dish is my buddies and it consists of homemade bacon mac and cheese with 4 large shrimp to top it off!! It was absolutely awesome!!!

As you can see here the dining room is very comfortable, clean and has tons of cool decor. In the photo on the next page you can see they have a fire place for those cooler Texas days and evenings.

*For Sale*  
**2005 Chevrolet SSR**

Tennessee Based Free Online Car Magazine!!!

August 2017 Issue 08 Volume 8

## BENCH RACING

Bench Racing is defined in several different ways. The urban dictionary defines Bench Racing as:

1. To discuss quarter mile elapsed time of a car based on a list of modifications or horsepower estimate.
2. To discuss the estimated output (in horsepower) of one engine versus another based on lists of modifications done to each engine.
3. To discuss the estimated output (in horsepower) of one engine versus another based on lists of modifications done to each engine.

While I do agree with the Urban Dictionary's definition of Bench Racing, Bench Racing in the context of this section of the magazine will be defined as:

1. Discussion of ANYTHING automobile related between at least two individuals with the goal of passing time at a car show, sharing automotive related ideas, opinions or entertaining themselves or others.

Please feel free to share your bench race session with the readers by emailing:

[benchracing@wolfmotorsportsmagazine.com](mailto:benchracing@wolfmotorsportsmagazine.com)

### How much bench racing have you been doing this winter??

I really think that compared to previous winters, that we really haven't bench raced too much this winter. We have had different priorities to take care of, some of the friends who we would normally bench race with have also had different priorities, so it's been pretty quiet and light on the bench racing front.

Are we losing interest, you may ask? Not a chance!!!! Not a permanent change anyway, it's just the focus has temporarily changed for us for a bit, and for others it may be more of a long-term change of focus. But hey it happens!

I truly believe that this year in 2018 our bench racing sessions will change a bit as we continue to meet new and interesting people who share the same focus and drive as we do, pretty much eating, sleeping, breathing and dreaming about this hobby of ours and where the future is headed!!!

One of my focus areas this year is to meet more folks at the shows, hear their stories and hopefully forge a long term friendly relationship, where we look forward to seeing each other every year at the shows that we attend across the US. Enjoy your spring, if and when it finally gets to your area!! WMM

Let's Bench Race!!! [benchracing@wolfmotorsportsmagazine.com](mailto:benchracing@wolfmotorsportsmagazine.com)
